

# Salinger

Salinger features Writer's Block ink resistant technology, which offers a unique repel & release stain inhibiting system. This dual action topcoat prevents ink and other stains from setting into the material and allows for easy cleaning, even after longer periods of time. With the ability to withstand high dilutions of bleach or Isopropyl alcohol any potential residue that may exist can be cleaned off easily.

Prompt cleaning is always recommended. Recommended cleaning steps are listed by type of stain.

## REGULAR CLEANING AND MAINTENANCE

Clean the soiled area with mild soap and water, then rinse with fresh water and wipe dry with a clean cloth.

## EXAMPLE

Dirt  
Grime

## FOOD STAINS / OILS

Wipe the affected area with a soft cloth with appropriate pressure. If some stain persists, clean with mild soap and water. Rinse with fresh water and wipe dry.

For stubborn stains spot clean with a 70% dilution of isopropyl alcohol and water and wipe. Rinse with fresh water and wipe dry.

Mustard  
Ketchup  
Chocolate  
Coffee / Tea  
Salad Dressing

## HEALTHCARE / DISINFECTION

Wipe the affected area with a soft cloth with appropriate pressure. If some stain persists, spray it with a 70% dilution of isopropyl alcohol and water and wipe. Rinse with fresh water and wipe dry. Disinfection: This material will withstand a 20% solution of Household Bleach and water. It is important to rinse the cleaned area with fresh water after applying the bleach solution.

Blood  
Urine  
Betadine

## INK MARKS / GRAFFITI

Rub the affected area with a dry soft cloth with firm pressure. If some stain is still present spray it with a 70% dilution of isopropyl alcohol and water and wipe. Rinse with fresh water and wipe dry.

NOTE: Removal of ink, particularly permanent marker, may vary depending on the period of time that the ink sets in. While this material offers excellent protection, full removal is not guaranteed.

Eye shadow / Mascara  
Lipstick  
Crayon  
Grease  
Mustard

## DENIM DYE TRANSFER

This material is designed to withstand the transfer of most types of Indigo Dye. In the case that faint dye transfer is visible, this can typically be removed with a 70% dilution of isopropyl alcohol and water.

NOTE: Removal of indigo dye, particularly from wet jeans, may vary depending on the type of denim. While this material offers excellent protection, full removal is not guaranteed.

Blue Jeans

**NOTE: The use of commercial vinyl conditioners and protectants is NOT RECOMMENDED.**
