

Alcott

This pattern has an SW and BC cleaning code. Prompt cleaning is always recommended. Cleaning steps are listed by type of stain.

REGULAR CLEANING AND MAINTENANCE

Clean the soiled area with mild soap and water, then rinse with fresh water and wipe dry with a clean cloth.

FOOD STAINS & OILS

Wipe affected area with a soft cloth with appropriate pressure. If some stains persist, clean with mild soap and water. Rinse with fresh water and wipe dry. For stubborn stains, spot clean with a 70% dilution of isopropyl alcohol (rubbing alcohol) and water and wipe. Rinse with fresh water and wipe dry.

HEALTHCARE/DISINFECTION

Clean the soiled area with a 10% solution of household bleach and water. It is important to rinse the cleaned area with fresh water after applying the bleach solution.

DIFFICULT STAINS

Clean the soiled area with 70% solution of isopropyl alcohol and water. It is important to rinse the cleaned area with fresh water after applying the alcohol solution.

DENIM DYE TRANSFER

This material is designed to withstand the transfer of most types of indigo dye. In the case that faint dye transfer is visible, this can typically be removed with a 70% dilution of isopropyl alcohol and water.

Note: Removal of indigo dye, particularly from wet jeans, may vary depending on the type of denim. While this material offers excellent protection, full removal is not guaranteed.

INK MARKS & GRAFFITI

Wipe the affected area with a dry soft cloth with firm pressure. If some stain is still present spray it with a 70% dilution of isopropyl alcohol and water and wipe. Rinse with fresh water and wipe dry.

Note: Removal of ink, particularly permanent marker, may vary depending on the period of time that the ink sets in. While this material offers excellent protection, full removal is not guaranteed.
